DELINEATOR

IRS flexible delineators are designed to aid motorists in identifying the alignment of the roadway when utilized in roadside or centerline applications.

CHEVRON ROAD SIGN

It show the edge of the road or a curve with a reflective feature to keep the road safe.

ROAD STUDS

(Cat eyes)
The studs are visible and can also be heard and felt, due to the rumble when a vehicle crosses over them.

SIGN BOARD

Traffic signs or road signs are signs erected at the side or above roads to give instructions or provide information to road users. Traffic signs can be grouped into several types

CANTILEVER SIGN

Accurate in dimension, these Cantilever Sign Board are light in weight and easier to hang. Best in quality, these sign boards remain same up to longer years

TRAFFIC CONES

It also called pylons, witches' hats, road cones, highway cones, safety cones, or construction cones, are usually cone-shaped markers that are placed on roads or footpaths to temporarily redirect traffic in a safe manner.
